CombineNet Overview: Best of Breed e-Sourcing Company

CombineNet, Inc. is the best of breed e-sourcing technology company with 12 years of delivering strong value to mid-sized and global organizations alike, across nearly all industries, as they make supplier and spend decisions on products and services. CombineNet's best-in-class [e-sourcing products](#) -- [CombineNet ASAP](#) for e-Sourcing, [Spend Analysis](#), and [Contract Management](#) -- are web-based software-as-a-service (SaaS) solutions that allow sourcing teams to more effectively manage spend across all spend categories, regardless of size, scale, or complexity.

CombineNet was founded in 2000 to provide unique and proprietary optimization technology to businesses seeking advanced decision-making capabilities for sourcing events. Following early successes with clients such as Procter & Gamble and Bayer, particularly for highly complex transportation sourcing needs, CombineNet continued to expand on the capabilities of its technology to productize the solution to meet the wide range of customers' sourcing needs.

CombineNet today helps its customers rapidly get more spend under management by improving the sourcing of a vast range of direct and indirect materials, services, transportation, packaging, and unique categories. In July 2010, the company received a capital investment from Alta Communications to fuel continued product development and market growth.

CombineNet holds 17 patents in the U.S. for our advanced sourcing and bid optimization methodologies, making our e-sourcing technology a strong competitive advantage for our customers. Sixteen of the Fortune 100 and more than 60 of the Fortune 1000 have turned to CombineNet for their strategic sourcing activities. With offices in North America and Europe, CombineNet has extensive global expertise in generating significant returns for its clients.
