THE BIOTECHNOLOGY EDUCATION COMPANY®

[Home](#)[About us](#)

Dryzyme® - Eco RI 715

The enzyme is isolated from *E. coli* RY13 carrying RI (fi+ plasmid) genes for restriction and modification as well as genes for resistance to the drugs sulfathiazole and streptomycin. The recognition specificity of Eco RI is sensitive to ionic environment. Product is lyophilized and contains 1500 units.

Secure Online Ordering:
