Product Description
When you're working high up on scaffolding, balancing on ironwork and even just climbing down a ladder for some more nails, the SureTrack 6 inch Work Boot gives you the grip you need, because nothing puts you out of work like a slip at the wrong time. To keep you on the job, these work boots feature a dual layer of rubber soles that conform to slippery surfaces, grip ladder rungs and give you the sure footing you need to keep moving forward with every step. And to add comfort through all day, these boots feature a double layered insole that absorbs shock, reduces wear and keeps your feet feeling good, even during those long shifts when the job's just got to get done.
By combining a steel shank with reinforced Goodbear® extra traction sole to support and the ankle support of a safety boot height, this Diehard Brown Men's Boot is a staid piece of equipment that will give you stability, even when you're shouldering a heavy load. And to keep your feet safe from angle grinder sparks, scraps, cuts and more, these boots feature a durable full grain leather exterior coated up by the strength of a pig skin lining that delivers protection in any environment. The perfect combination of grip, support and safety, these boots will keep you working through dozens of jobs, mowing lawn and getting it done right. Toss a pair in your trunk and you'll always be ready for more.

• SureTrack 6 inch Work Boot comes in medium and wide widths for a better fit.
• Full grain leather and pigskin lining provide durability and comfort with every
