Contents

1. About This Guide	7
1.1 Copyright.....	7
1.2 Document Conventions.....	7
1.3 MetraNet Documents and Intended Audience.....	8
1.4 Technical Support.....	11
2. Planning Your MetraNet Deployment	13
2.1 MetraNet 6.5 Software Requirements.....	14
2.1.1 <i>All MetraNet Servers</i>	14
2.1.2 <i>Database Servers</i>	15
2.1.3 <i>Development Workstations</i>	16
2.1.4 <i>Other Servers</i>	16
2.1.5 <i>Client Machines</i>	16
2.2 About MetraNet Servers	17
2.2.1 (1) <i>Database Server</i>	18
2.2.2 (2) <i>Reporting Server (optional)</i>	18
2.2.3 (3) <i>Primary Pipeline Server</i>	19
2.2.4 (4) <i>Billing Server</i>	19
2.2.5 (5) <i>Activity Services Server</i>	19
2.2.6 (6) <i>Web Application and Dedicated Servers (optional)</i>	20
2.2.7 (7) <i>MetraPay Server</i>	20
2.2.8 <i>MetraConnect Server (optional)</i>	20

2.3	Standard Production Configuration	21
2.4	Server Installation Worksheets	23
2.4.1	MetraNet Servers.....	23
2.4.2	Security Information.....	24
3.	Installing MetraNet.....	27
3.1	Preparing to Install MetraNet	27
3.1.1	Installation Sequence.....	29
3.2	Installing and Configuring Windows Server 2008.....	38
3.2.1	Install and Configure Windows Server 2008	41
3.2.2	Specify Trusted Sites	42
3.2.3	Install .NET Framework 4.....	43
3.2.4	Install ASP.NET AJAX	45
3.2.5	Install MSXML 4.0 SP2 and Updates	45
3.2.6	Install and Configure Application and Web Servers.....	45
3.2.7	Confirm That MSMQ Server Is Installed.....	51
3.2.8	Enable Parent Paths.....	52
3.2.9	Configure Port Access	54
3.2.10	Set System TEMP Folder Permissions.....	58
3.2.11	Configure DTC-Related Settings.....	60
3.2.12	Install Database Connectivity	63
3.2.13	Install the 2008 SP1 and 2010 Visual C++ Redistributables.....	78
3.2.14	Install Crystal Reports Client Components.....	79
3.2.15	Install and Run MetraNet Diagnostics Tool	80
3.2.16	Install Development-Related Software	81

3.3	Installing the Database.....	81
3.3.1	Install SQL Server 2008 R2	81
3.3.2	Install Oracle Database 11g Release 2.....	83
3.4	Installing MetraNet 6.5	88
3.4.1	Testing and Troubleshooting DTC Connections.....	89
3.4.2	Installing MetraNet 6.5.....	92
3.4.3	Installing MetraNet Reporting.....	116
3.4.4	Installing MetraNet on the MetraView Server	124
3.4.5	Installing A/R	125
3.4.6	About Restoring the RMP folder.....	126
4.	Configuring MetraNet Servers	128
4.1	Install MetraNet ICE	128
4.2	Install BMC AppSight.....	129
4.3	Start, Stop, and Restart MetraNet Services.....	130
4.4	Start, Stop, and Restart IIS	132
4.5	Synchronize Timekeeping on MetraNet Servers.....	133
4.6	Multiple Server Configuration.....	134
4.6.1	Configure Servers.xml.....	134
4.6.2	Configure Listener.xml and Route.xml	136
4.6.3	Configure EPSHost.xml	138
4.7	NetMeter Configuration.....	138
4.7.1	Enable/Disable Materialized Views.....	138
4.7.2	Configure the NetMeter Database for SQL Server.....	140
4.7.3	Set Up a Remote SQL Server Database.....	140

4.7.4	Point New Servers to the Database	141
4.8	NetPay Configuration	143
4.9	Billing Server Configuration	144
4.9.1	Setting Up Your Billing Servers	145
4.10	Activity Services Configuration	149
4.10.1	Install a Test-Only ActivityServicesCert Certificate	149
4.10.2	Import an X-509 Certificate	152
4.10.3	Upgrade to a CA-Issued Certificate	153
4.11	Web Application Configuration	155
4.11.1	Start, Stop, and Restart IIS	155
4.11.2	Confirm that the Listener Service Is Running	155
4.11.3	Disable the Listener on Other Servers	156
4.11.4	MetraNet Web Deployment Recommendations	158
4.11.5	MetraNet Web Application Redirection	159
4.11.6	Standalone Client Proxy Configuration	161
4.11.7	Business Rule Changes	162
4.12	A Note About MetraNet Encryption	162
5.	Testing a MetraNet Installation	164
5.1	Initial Testing Checklist	164
5.2	Logging Into MetraNet for the First Time	164
5.2.1	View MetraCare and Default Accounts	166
5.2.2	View MetraControl and Default Interval	167
5.2.3	View MetraOffer and New Price List	167
5.3	Testing a Metered Billing Session	168
