Product Overview Product Reviews

The perfect choice for those who want the top of the line 10 speed Campagnolo system with absolute precision and reactivity guaranteed.

The ergonomic design of the Campagnolo Ergopower controls also used for their 11s groupsets provides the most correct and secure support for the hands in all driving positions. The Centaur Ergopower controls feature the Power Shift System mechanism, which makes it possible to move the chain by three sprockets in downshifting and one in upshifting.

Key Features:

- Power-Shift mechanism gives extremely fast and precise.
- Ultra-Shift ergonomics ensures a firm grip on the handlebars and fast, precise control of the levers.
- The special ergonomic design makes it possible to assume three different hand positions on the levers compared to the two traditional ones.
- Double curvature brake lever allows you to engage and modulate the brake safely from any hand position.
- Vari-Cushion hoods are made of non-allergenic elastic material, with variable cushioning that provides the maximum comfort and safety even after many hours on the bike.
- Thanks to a special treatment, it is resistant to UV rays and maintains its original colours without fading.
- Carbon-fibre version with aluminium core gives greater shock resistance.
- Colour: Carbon, Black and Red.
- Weight: 373g (manufactures claimed).
- Includes: Left and right controls, with gear and brake cables.
