Unlock Your Profit Potential!

Credit challenged (subprime) borrowers now make up 46% of the auto finance market.* Are you currently turning these customers away? Do you want to control financing and increase cash flow at time of delivery...and in the future? Do you spend too much time collecting payments and not enough time selling cars? If you answered yes, it's time to partner with us!

The Credit Acceptance Advantage!

- 100% non-recourse financing!
- Say 'Yes!' to everyone in 30 seconds or less.
- Proven industry leader since 1972 (NASDAQ: CACC).

Stories

Portfolio Program: Receive an up-front advance and share principal and interest of payments collected. You control the financing and assign the contract to us for collection. This is, by far, our most popular program.

Purchase Program: Receive a higher up-front advance now, but no share of future collections. This tends to work well for newer, low mileage vehicles when additional cash flow is required now!

Collection Only Program: Receive a monthly check as we collect payments for your dealership. Use this program when you cannot provide the proof of stipulations needed to receive an advance. Receive a check beginning with your customer's first payment!
