Get Big EVH Sound From a Small Cab!

Nail that classic Van Halen tone with the EVH 5150 III 1 x 12" straight cabinet! Loaded with a single 12" Celestion G12H speaker, this cab is sure to rock your world. Made from sturdy birch plywood, the 5150 III 1 x 12" cabinet will last for years. You'll love the big tone without the big weight. This 1 x 12" cab's smaller size makes it perfect for smaller club gigs and practicing. Don't let cramped accommodations keep you from massive tone, get the EVH 5150 III 1 x 12" cabinet to go with your EVH 5150 III 50W Head today!

EVH 5150 III 1 x 12" Straight Cabinet at a Glance:

- ✓ EVH sound and power in a smaller package
- ✓ Rugged construction to last a lifetime
- ✓ Celestion speakers for classic EVH tone

EVH sound and power in a smaller package

If you're looking at the 5150 III cabinets, then you're after the EVH tone. The EVH 5150 III 1 x 12" straight cabinet was designed to Ed's specs to deliver killer tone. You won't believe the sounds you get out of this cab when you pair it with the 5150 III 50W Head! Get classic guitar tones that defined rock 'n' roll for decades with the EVH 5150 III 1 x 12" straight cab!

Rugged construction to last a lifetime

The EVH 5150 cabs can take a beating! Constructed from birch plywood, the EVH 5150 III 1 x 12" straight cabinet will keep going, no matter how you treat it. This cab won't fall apart or get wobbly on you. You can rely, and count on, the 5150 III 1 x 12" cab to be there for you night after night.

Celestion speakers for classic EVH tone

Through out his career Eddie Van Halen has relied on Celestion speakers. The 5150 III 1 x 12" cabinet continues that tradition with a single 12" Celestion G12H 30W Anniversary Speaker. The G12H gives you thick, warm tones with a tight low end. This speaker exudes classic EVH tone when combined with the 5150 III 50W Head.
