### ABOUT US

Established in 1971, CANAC Railway Services Inc. (CANAC) is a creative, single source provider of end-to-end integrated railroad solutions. We deliver customized, distinctive and sustainable solutions to meet and exceed our customers' expectations, worldwide. In everything we do we value the highest professional, ethical and business standards.

CANAC has a mix of young talent and seasoned rail professionals with numerous years of experience in the rail industry. With this expertise and knowledge of all technical and operational aspects of rail infrastructure, operations, logistics, rolling stock and training. CANAC provides clients with comprehensive, turnkey solutions for the most complex projects, and CANAC develops and implements plans for the overall management of rail operations and/or the oversight and implementation of railway construction projects.

CANAC is an industry leader and has a proven track record worldwide in six main business lines:

- Engineering services
- Rail operations and capacity planning
- Mechanical services
- Training solutions - Training delivery and development
- International end-to-end rail consultancy and operation
- Rail related information technology systems

CANAC was founded as the international railway consulting arm of Canadian National Railway Company (CNR), and is currently a wholly owned subsidiary of SAVAGE Companies.
