Facet Technologies, LLC • 112 Town Park Drive, Suite 300, Kennesaw, GA 30144, USA

The latest technology in lancing!

The all-in-one system uses a uniquely designed lancing device and a disposable cartridge that self-contains 20 micro-lancets.

Designed for pain-free sampling

- Precision lancet guidance system makes testing quick and accurate
- New sterile micro-lancet with each use

Safe and easy to use

- Sharp retracts after each use
- Lancets within cartridge format allows safe and convenient sharp removal and disposal

No handling of individual lancets

- Automatically advances to the next sterile micro-lancet
