## What we do

Growing globalisation of the worlds economies has enabled companies to increasingly capitalise on market opportunities.

This has logically led to an ever-rising demand for low-cost high-performing, customised tools dedicated to managing client and supplier relations in real time and with total security. Coface whose mission is to facilitate business-to-business trade has been swift to respond to this call, by proposing a full array of solutions suited to companies of all sizes and nationalities across all sectors of the economy.

its offer is geared to managing, financing and protecting the customer portfolio while enabling companies to outsource all or part of their receivables management, as well as the related risks. Coface has over 4,600 employees serving 35,000 credit insurance clients, with each countries organisation structure based on integrated sales forces and the following four product lines:

Credit Insurance

Factoring

Corporate Rating and Business Information

Receivables Management
