

## QCI Engineering Services

We offer hardware and software engineering services on a contract/consulting basis. Please [contact](#) our Product Support department via email or phone to describe your project.

- Software Engineering Services
  - Software Design
  - Quicksilver Control Programs (.QCP)
  - C++
    - Embedded
    - GUI
  - HMIs
  - PLCs
  - Object Oriented Design (OOD)
- Hardware Engineering Services
  - Hardware Design
  - PCB design
  - Layout
  - Production
- Custom Design Software and Hardware Modifications of QCI Products
- Digital Filter Design
- Analog Filter Design
- Experts in Motion Control System Design:
  - Cutting
  - Sealing
  - Scanning
  - Animatronics
  - Pick and Place
  - Labeling
  - Material Handling
  - Medical Analyzers
  - Pharmaceutical Production/Dispensing
  - Packaging
  - Pan/Tilt
  - CNC Machines
  - Camera/Antenna Positioning
  - Winding/Unwinding
  - Tensioning
  - Cap/Bolt Tightening
- Integration with third party industrial controllers / HMIs (Human Machine Interfaces)
- Provide Training in using our product
