#### Window & Door Surrounds

TruForm's Window and Door Accessories TruForm's one-piece system is designed with a unique Storm Flange and built-in J-Channel to give the home the appearance it deserves and the protection it needs. The are architecturally correct. Each casing has been specially designed with a 3/4" milled wood-like profile to help maintain the architectural integrity of the home. TruForm accessories are pre-engineered providing superior strength. Each casing is made from a high performance alloy -- HP26 before being slowly formed to enhance its tensile strength.
