

RODBUSTER™ ACCESSORY PRODUCTS

Mar-Mac Wire's new QuickDraw Wire Reel offers your RodBuster™ customers quick and simple reloads, tangle-free operation, and durability they can trust!

The QuickDraw Wire Reel features a unique cam-lock closing mechanism, that opens with a simple twist of the spring-loaded knurled ring on front. This action secures the face of the reel, and can be accomplished without removing the reel from the RodBuster's™ belt.

This wire reel includes dual 2" wide belt loops on back for secure positioning on the waist, twin wire ports for right or left-handed use, and is constructed of rust-free cast aluminum and durable stainless components for many years of dependable service.

Our Terri-BAND Comfort Band is a unique product that has become a "must-have", especially when working outside during hot weather conditions. The Terri-BAND easily snaps in place at the front of the RodBuster's™ hardhat, preventing perspiration from streaming into the eyes while working. This item is made from absorbent terry-cloth, and can be washed again and again!
