EMEA Manugistics Tips & Tricks: Setup and Configuration of the Common Security Administration Module

Common Security Administration Overview

The contents of this Webinar are applicable for release 7.2.x to 7.4.2

Please join Bruno Mendes, Support Analyst, for this informative Support Webinar to discuss the basics of setting up and configuring Common Security Administration (Enterprise, Roles, ACL, Resources) using JDA Enterprise Architecture for JDA applications. The contents of this Webinar are applicable for release 7.2.x to 7.4.2

This webinar is scheduled for 14h00 GMT on December 17th and only open to support-paying customers.

Speakers

Bruno Mendes
Support Analyst
JDA Software Group, Inc.

Agenda

- **Enterprises:** Your organization and the organization with whom you do business
- **Users:** Individuals access to applications
- **Roles:** Which actions users can perform and which types of data users can access
- **Filters:** Which relational data rows users can access
- **Resources:** JDA application resources (tables, columns, features and entities) for which access is controlled
- **Partnerships:** Relationships between organizations with whom you do business
- **Reports:** Monitor all the active sessions of a connected user
