Day & Zimmermann Engineering, Construction, and Maintenance (D&Z ECM) group is a leading provider of total plant lifecycle solutions for the power, process and industrial markets. With more than 23,000 employees, a network of strategic locations, and a proud history of more than 100 years, D&Z ECM has developed a portfolio of offerings designed to maximize value creation for its customers.

We deliver complex projects safely, on time and within budget by leveraging wide-ranging capabilities, long-standing industry experience, innovative technology, and expert project teams. Our unique approach employs seamless processes that effectively manage all aspects of the plant lifecycle. From nuclear and fossil plants to specialty chemical and food & beverage production facilities, our clients reap the rewards of shortened cycle capital projects, optimized operations and maintenance investments, and a safe, secure environment for all stakeholders.

Our capabilities include plant maintenance and modifications; power plant outages; process and industrial plant shutdowns and turnarounds; specialty services; and capital projects.

Day & Zimmermann's core competence is in the maintenance and modification of existing industrial plants. Improving maintenance efficiency and effectiveness is critical to minimizing downtime and reaching higher levels of profitability. Day & Zimmermann understands the economic impact of downtime or compromised plant performance – that is why companies in the power, process, and industrial sector rely on us to maximize asset performance and output.

Our Total Accountability Model provides a single point of contact driving accountability across safety, human performance, cost, schedule, quality, and resource supply.

Day & Zimmermann has flexible service delivery models that respond to the needs of our clients, including supplemental contingent workforce, managed task, and stand-alone projects.

The Nation's Leader in Power Plant Maintenance

Day & Zimmermann is the leading power contractor specializing in maintenance and modification solutions for the nuclear and fossil power markets. For the sixth consecutive year, we are ranked as the #1 O&M contractor in the U.S. Power market by *Engineering News-Record*. Working as an alliance partner, D&Z lowers the total cost of ownership for generation assets by consolidating services and providing a single point of contact driving accountability across safety, human performance, cost, schedule, quality, and resource supply.

Nuclear and Fossil Energy Services

- Industry-leading safety & human performance
- Maintenance & modifications
- Pre-outage readiness planning & review
- Managed task work execution
- Turnkey capital projects
- Boiler maintenance & repairs
- Balance-of-plant services
- Fleetwide best practices

Specialty Services

Day & Zimmermann offers unique capabilities that supplement our maintenance services and seamlessly integrate into the total plant lifecycle solutions we deliver to our customers.

- **Condensers**
- Ice condensers
- **Valves**
- Turbines
- Scaffolding
- Asbestos abatement and insulation
- **Radiological protection**
- Security screening
- **Professional and technical staffing**
