

# HuskyConnect

## GreenShares®Program

GreenShares is an incentive program that encourages all Husky team members to be proactive in the responsible use and protection of natural resources. The program is part of Husky's Target ZERO initiative that aims to reduce our carbon footprint through environmentally sustainable practices.

Through the GreenShares program team members receive points for behaving in an environmentally responsible way. Some examples of activities that earn points are:

- Carpooling, riding your bike or walking to work
- Purchasing environmentally friendly cleaning products
- Eating one vegetarian meal a day
- Turning off your lights when you leave a room
- Attending an exercise class

Participation is easy. All you have to do is track your activities through the online form and submit them at the end of each month. The form automatically calculates your GreenShares and submits them to the EHS team.

At the end of the GreenShares program cycle (June - May), names of all the participants will be entered into a draw to win amazing prizes.

### Statistics

Participation rate:

Program Year	Participation Rate
2009-2010	n/a
2010-2011	n/a
2011-2012	20%
2012-2013	22%

The GreenShares Program is aligned with Husky's Target ZERO goal of reaching carbon neutrality and zero lost time accidents by 2025. This site provides all the information that any permanent, full-time Husky team member will need to participate in the GreenShares Program. Items you'll find on this site include:

The GreenShares procedure which should be read by each team member before participating in the program.

The GreenShares Terms of Agreement which must be read, and submitted before participating in the program.

The GreenShares online form, which is to be filled out on a monthly basis by program participants.

A Carbon Footprint Calculator to use as an educational tool to determine your or your family's carbon footprint.

Information regarding Husky's global commitment to reach the Target ZERO goals of carbon neutrality and zero lost time occurrences by 2025.

GreenShares Frequently Asked Questions.
