ANTIQUE BRUSHED NICKEL | Model No. V005501

**Heritage<sup>™</sup> | Deluxe**  
Natural Spectrum<sup>™</sup> Desk Lamp

**NATURAL SPECTRUM LIGHT**

The Heritage updates the iconic pharmacy lamps of the past - in appearance and performance: Verilux Natural Spectrum illumination is from a portion of the light spectrum that's closer to natural daylight. Your eyes can process the light more easily and efficiently than conventional indoor light. This means you'll see more clearly, with less fatigue and eyestrain. You'll stay focused and productive.

**Shedding Light on Natural Spectrum**

Verilux Natural Spectrum light illuminates in the broader spectrum range to better stimulate the cones and rods (photoreceptors) of the eye. This enhanced stimulation improves visual performance by relaxing the size of the pupil to better focus light, relaxing the eye while increasing visual acuity and processing.
