# WING<sup>®</sup> Express<sup>™</sup> Bows

## Devastator Express<sup>™</sup> \$339.95

Speed, arrow cast, durability, dependability, smoothness of draw, balance, comfortable grip, and light mass weight are the combined characteristics most asked for in a quality hunting compound. All of these factors have been carefully considered and built into the all new Wing Devastator Express<sup>™</sup>.

An excellent bow for hunting and 3-D shooting, the Devastator Express<sup>™</sup> has achieved outstanding arrow speeds. The Devastator Express<sup>™</sup> offers a magnesium riser with a thin-waisted grip which fits the archer's hand like a glove. The cutaway arrow rest receiver accepts most overdraws easily.

Our bow limbs provide unsurpassed energy storing capabilities thanks to multi-layered glass laminates with a full working recurve design.

All eccentrics feature single-groove in-line design to enhance stability and consistency. The Super Flight<sup>™</sup> Energy Wheel<sup>™</sup> delivers the smooth draw of a round wheel with the energy transfer of a cam. Our Pass-Thru Power<sup>™</sup> Kidney Kam<sup>™</sup> design maximizes performance for unequalled penetration capability.

Devastator  
Express<sup>™</sup>

World Hunter  
Express<sup>™</sup>

## World Hunter Express<sup>™</sup> \$359.95

Like the legendary Devastator Express<sup>™</sup>, the World Hunter Express<sup>™</sup> features full working multi-layered glass laminate limbs. The foundation of the World Hunter Express<sup>™</sup> is a rugged cast-magnesium riser designed for strength and durability. Cut-away arrow rest receiver and long site window provide maximum visibility and clearance.

The Super Flight<sup>™</sup> Energy Wheel<sup>™</sup> or Pass-Thru Power<sup>™</sup> Kidney Kam<sup>™</sup>, using Wing's split yoke Fast Flight cables and string, provide undeniable penetration power, shot after shot.

Uniquely forgiving for the fingers or release shooter, the World Hunter Express<sup>™</sup> will be your key to the future.

**LEFT:** Our Super Flight™ Energy Wheel™ provides the smoothness of draw offered in a round wheel with the energy transfer of a radical cam. Split yoke system.

**RIGHT:** Our Pass-Thru Power™ Kidney Kam™ maximizes performance for both speed and energy transfer of unequalled penetration capability. Split yoke system.

**Warranty Information:**

Wing Compound Bows are backed by a three year limited warranty to the original owner only. Strings, cables, bow finishes, and cable guards are not covered by this warranty. Abuse, mishandling, or alteration of any Wing product voids any claim to warranty. Wing cannot be held responsible for injury nor equipment failure due to neglectful maintenance or improper use, including using arrows lighter than the Archery Manufacturers Organization recommended minimum.

*Lefties: Call or write for information on The Wing Concord™. Available mid-1996.*
