NATURAL VENEER STONE

MCEAGF1
Eagle Ridge
Flats • 100 SF

Approximately covers 100 sq. ft. depending on installation. Stone has natural variations in color, size and markings.

WARNING: This product contains crystalline silica (quartz). Breathing silica dust may cause respiratory and other health problems, including lung disease, silicosis and cancer, which may result in permanent injury or death. Risk of injury depends on duration and level of exposure. To reduce the risk of injury, limit exposure time and use a dust mask or respirator. Before using or handling this material read the material safety data sheet.
