

THE SKY QUEST

Darkness rules the universe. The power to make dreams come true seems dead and long gone. Menacing Gluttone Drones patrol the streets of planets throughout the galaxies. Where dreams once flourished, now there is only fear.

But a small band of rebels is secretly working to overcome the Dark Forces now controlling their planet.

A young rebel sprints across the rocky badlands clutching a shiny piece of equipment he's built. He must reach the rebel leaders before the Dark Forces that rule his planet reach him.

He races against time to protect a mysterious secret...an ancient formula said to be the only way to rekindle the lost Power of the Dream...the only way to regain the power to once again make dreams come true.

This ancient formula is the rebels' only hope.
