PRODUCT ATTRIBUTES & APPLICATIONS

Riverside Veloz Plaster Cement

Veloz plaster cement is a fast-setting product manufactured specifically for stucco and other plastering and general masonry applications. It has been specially designed to achieve high final strengths while remaining crack-resistant. Meets requirements for ASTM C13328 for Plastic Cement (Types S & M), ASTM C91 for Masonry Cement (Types S & M), IBC 2006/2003 (for Plastic and Masonry Cements), UBC 1997 25-1 for Plastic Cement and UBC 1997 21-11 for Masonry Cement specifications. For current SDS information, email safety.administrator@martinmarietta.com.
