In today's business environment, quick decisions are critical if you want to stay a step ahead of your competition. But if you're relying solely on instinct or references, you may be placing your company and your livelihood at risk. We know you want to focus on what you do best. Let Equifax help you with your business risk assessment needs.

Other 3

Our Business Risk Indicator Report for Small Business, part of our Business Assure suite, provides the critical intelligence you need to verify the legal identity and assess the current credit standing of potential clients, partners, suppliers or vendors of any size.

Information available in the Business Risk Indicator Report for Small Business includes:

- Company Profile – key firmographic information such as company name, address, phone numbers, employee size, annual sales and much more
- Business Verification – confirmation that the business exists in the Equifax Commercial database based on Secretary of State registration, public record filings and credit information reported about the business
- Risk Indicator Ratings – an at-a-glance view of business credit risk based on Equifax predictive scores that forecast the likelihood of payment delinquency and business failure within the next 12 months
- Risk Alerts – indicates potential 'red flags' due to high-risk criteria found within public records and credit files
