OTHER INGREDIENTS: Cellulose, Silicon Dioxide, Croscarmellose Sodium, Stearic Acid, Magnesium Stearate, Film Coating (Hydro Propyl Methyl Cellulose, Triacetin, Titanium Dioxide).

INDICATIONS: PRENATE ELITE® is a multivitamin/multimineral fatty acid dietary supplement indicated for use in improving the nutritional status of women throughout pregnancy and in the postnatal period for both lactating and nonlactating mothers.

CONTRAINDICATIONS: PRENATE ELITE® is contraindicated in patients with a known hypersensitivity to any of the ingredients.

PRECAUTIONS: Folic acid alone is improper therapy in the treatment of pernicious anemia and other megaloblastic anemias where Vitamin B12 is deficient. Folic acid in doses above 1.0 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations progress.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.
