Skin Closure Strips

McKesson Skin Closure Strips are designed to provide superior wound closure and security. They are made of a macro porous non-woven polyamide material with pressure-sensitive adhesive. McKesson Skin Closure Strips are ideal for primary closure and help secure, close and support small cuts and wounds. Additionally, they provide wound support following early suture or staple removal. This product is available in non-reinforced or reinforced formulations and comes in a variety of sizes. Not made with natural rubber latex.

Barrier Island Dressings

McKesson Barrier Island Dressings are used as a primary or secondary bordered, non-adherent, occlusive gauze composite dressing for wounds with light to moderate exudate. This flexible, conformable, occlusive dressing helps protect wounds from outside contamination. The water-resistant film layer acts as an effective barrier to outside contamination and permits showering. Not made with natural rubber latex.

Island Dressings

McKesson Island Dressings are used as a primary or secondary bordered gauze dressing for wounds with light to moderate exudate. One-step application is an excellent alternative to gauze and tape to help save caregiver time. The non-adherent central gauze pad provides absorption of light to moderate drainage. This product is available in non-sterile and sterile formats and comes in a variety of sizes. Not made with natural rubber latex.

ABDOMINAL PADS

McKesson

Medi-Pak™ Performance Plus Combine ABD Pads

Non-woven outer fabric with inner cellulose tissue construction that helps provide maximum moisture barrier. Sterile. Not made with natural rubber latex.

McKesson #	Description	Packaging	Mfr #
446057	5" x 9" (12.7 cm x 22.9 cm)	1/pack, 20 pack/box	16-4250
446058	7.5" x 8" (20.3 cm x 19.0 cm)	1/pack, 12 pack/box	16-4252
446059	8" x 10" (20.3 cm x 25.4 cm)	1/pack, 24 pack/box	16-4254

McKesson

McKesson ABD/Combine Pads

Filled with cellulose fibers, making them super-absorbent. The fibers quickly absorb and disperse fluids laterally, to prevent pooling and maceration. Sterile. Not made with natural rubber latex.

McKesson #	Description	Packaging	Mfr #
645793	5" x 9" (12.7 cm x 22.9 cm)	25/box, 8 box/case	87059

Sterile Combine ABD Pads

Highly absorbent multi-layer dressing. Soft non-woven outer facing wicks moisture into the cellulose core that quickly absorbs and disperses fluid. Moisture resistant barrier prevents fluid strike-through. All edges are sealed to prevent linting and leakage.

McKesson #	Description	Packaging	Mfr #
360305	5" x 9"	1/pack, 25 pack/tray, 16 tray/case	5590

McKesson QUINTET AC[®] Blood Glucose Meter

For Single and Multiple Patient Use

The **McKesson QUINTET AC[®] Blood Glucose Meter** has been specially designed for the needs of clinicians concerned with patient diabetes management. Advances in technology provide features designed for a multiple patient environment; however this product is also approved for use for self-testing. The system features auto coding, which allows it to automatically calibrate using **McKesson QUINTET AC[®] Blood Glucose Test Strips** for quick and accurate testing. The product also features a large memory capability, minimal sample size and an easy-to-read LCD screen with backlight.

McKesson QUINTET AC[®] Blood Glucose Meter (For Single and Multiple Patient Use) Includes:

Carrying Case, Owner's Manual, Meter, Getting Started Guide, (2) 3 Volt batteries (Installed)

Features

- Auto coding for quick and accurate testing
- Alternate test sites: fingertip & forearm
- Results in 5 seconds
- Large memory; capable of recording up to 500 tests
- Calculates daily, weekly and monthly averages to better monitor your blood glucose
- Minimal sample size of 0.75µL
- Easy-to-read LCD screen with backlight
- Ergonomic design and "glove grip" paddle strips
- 1,000 test battery life
