536374	Various Size	10 electrodes /kit, 50 kits/case	87-150-10S

CASE® Exercise Testing System

With industry-leading algorithms, the CASE® system enables you to quickly and easily assess cardiac function during exercise for greater diagnostic confidence. Connect your CASE® system to a Local Area Network (LAN), and you can store patient data and test results to a central database. This enables physicians to review, edit and print data remotely, for maximum efficiency in your stress lab. CASE® enables you to optimize your digital workflow, too, with seamless connectivity to EMR, PACS, and the MUSE® Cardiology Information System.

McKesson #	Description	Packaging	Mfr #

232959	Fine Tip, Adjustable	10/box	22-102

ESU Grounding Pads

Round leading edge geometry disperses current more efficiently thus maintaining a cooler interface between patient and neutral electrode. Overlapping gel reduces risk of incident as aluminum edge exposure is eliminated. Softer hydrogel is kinder to skin and creates a better interface between patient and neutral electrode facilitating a more efficient electrical contact. Universal for use on pediatric and adult. User friendly tracking system (removable labels). Low profile waterproof backing. Non-adhesive lift tab to facilitate removal from protective cover and patient after procedure with minimal skin trauma.

McKesson #	Description	Packaging	Mfr #
796954	Non-Woven Standard ESU PAD, no cable	50/box	2407
796955	Non-Woven Split ESU PAD, no cable	50/box	2408
796952	Non-Woven Standard ESU PAD with cable	50/box	2507
796953	Non-Woven Split ESU PAD with cable	50/box	2508

WALACH

Quantum 2000™ ElectroSurgical System with Biovac™ Smoke Evacuator and Integration Unit

Wallach's exclusive technology consistently and accurately monitors power levels for smoother, drag-free cuts. Minimal thermal damage allows a superior histological specimen for pathology collection. Post-excision, the coagulation mode supplies powerful spray fulguration that can effectively seal bleeders. This fully integrated system features Biovac instant activation, foot- or hand-operated switches, audible safety alarms, and a return electrode monitoring system that uses a split grounding pad for extra safety.

McKesson #	Description	Packaging	Mfr #
477364	Quantum 2000 ElectroSurgical Generator with Biovac Smoke Evacuator and Integration Unit plus Starter Kit	each	909077A
