STRATEGIC ADVISORY SERVICES BY LOGIC

Download "A Business Case for Transforming Retail IT White Paper" [here](#)

Strategic Advisory Services by Logic provides large and mid-sized retailers with executive-level guidance in managing key risk areas and maximizing ERP project return. Logic's team of consultants – led by former C-level retail executives – provides guidance for strategic decision-making including assessing the cost-benefit of strategic outsourcing, improving IT/business alignment, and enhancing operational and organizational design early in the ERP program planning process.

STRATEGIC GUIDANCE FOR THE CIO

Strategic Advisory Services by Logic provides counsel and explores strategies that help CIOs refocus their organizations and succeed in tackling the challenges faced by the modern retail IT department. From strategic planning around multichannel commerce to leveraging The Cloud to dealing with legacy systems: Logic's strategic advisors can help you plan and execute successfully.

DESIGNING YOUR IMPLEMENTATION FOR SUCCESS

You have already decided to implement Oracle Retail. Now you need to deliver maximum business value quickly while also driving towards a longer-term IT vision for your retail enterprise. Strategic Advisory Services by Logic offers the ERP planning services designed to set you up for short and long-term success.

GETTING THE MOST FROM YOUR EXISTING RETAIL TECHNOLOGY INVESTMENTS

Strategic Advisory Services by Logic helps you get the most out of your existing Oracle Retail investment regardless of whether you went live a few weeks ago or a few years ago. From prioritizing the rollout of new capabilities for end-users to evaluating the cost vs. benefit of an upgrade to planning a new integration or extension – Logic's experts offer valuable guidance through every decision.
