## Personal Emergency Response Systems

*Experience Peace of Mind with TriHealth Home Connections*

- **Personal emergency response pricing.** (PDF)

TriHealth Home Connections, in business for more than 33 years, is a personal emergency response company operating through **TriHealth Senior Services**. Our mission is to help people remain independent as long as possible, by providing peace of mind to older patients and their families. People often live in fear that if a fall should happen, no one will be there quickly to respond with help.

With our medical alert system, subscribers summon assistance with the touch of a waterproof, personal care button that can be worn as an attractive, light-weight pendant or wristband.

### *Live Independently with Confidence*

- Local service 24 hours a day/365 days a year
- Advanced technologies including GPS, Fall
- Detection, Cellular Capability, Medication Monitoring
- Waterproof personal care button worn as a lightweight pendant or wristband
- No installation fee
- No equipment purchases
- No long term contracts

## Medication Management System

For those who have trouble remembering to take or organize multiple medications, our Med Ready Pill Dispenser can help ensure they take the right dosage of the right medicine at the right time.

Receiving help quickly is a key to recovery with a fall, since complications can develop when discovery is delayed. Personal emergency response shortens response time, which impacts clinical and financial outcomes for our patients.

### More Information about Medication Management System:
