

TESORO DEALER REMINDERS.....

1. Re-Boxed Detectors as New

As a way of assisting our Dealers, we have developed a "Re-Box As New" program. This program is designed to enable Dealers and/or Distributors to have detectors that have been returned be upgraded to "New" status by the Tesoro factory. The Dealer/Distributor must send the detector to the Tesoro factory where the detector will be evaluated as to which parts will need to be replaced to make it new again. Any parts that show wear will be replaced at the Dealer/Distributor's expense. All parts that are replaced at the dealer/distributor's expense will be returned to the dealer as long as they are still in working condition. Most parts that are replaced will be replaced for cosmetic reasons. Since the detector will be sold as new, all parts must show no wear. The detector will be issued a new warranty card and will be considered a new detector.

## METAL DETECTORS

# 11" x 8" Wide Scan Coils

Add this NEW Wide Scan Coil to your collection.

### Epsilon Series 5-Pin

\$149.00 MSRP

Coil Color: White

Dealer Cost: \$95.36

Part Number: **S-11X8W-SW-E**

**Can be used with the following Tesoro Detectors:** Silver uMax, Outlaw, DeLeon, Cortes

### Delta Series 4-Pin

\$159.00 MSRP

Coil Color: Carbon

Dealer Cost: \$101.76

Part Number: **S-11X8W-SC-D**

**Can be used with the following Tesoro Detectors:** Vaquero, Tejon, Lobo ST

Both coils have either a 3' Short or 8' Long Cable.  
Coils weigh 1lb. 1oz.

**S = Scuff (Coil Cover).** Omit if scuff is not present.

**8R = Coil Size in Inches and Shape.**  
R = Round, E = Elliptical

**C = Coil Type.** C = Concentric,  
W = Widescan, P = Pulse

**S = Cable Length.** L = Long Cable (8'),  
S = Short Cable (3')

**B = Coil Color.** C = Carbon,  
W = White, B = Brown

**E = Coil Series.** E = Epsilon Series (5 Pin)  
D = Delta Series (4 Pin)

### TESORO'S DEMO PROGRAM

Tesoro developed a demo program so that you can try any Detector(s) that you may not normally carry.

This program will enable our Dealers to understand and be able to operate all of our Tesoro units.

- Dealer may use the unit for the period of 2 weeks.
- The Detector remains the property of Tesoro Electronics, Inc. and is **not for sale**.
- The Metal Detector shall be returned in the same condition as received, except for normal wear and tear.
- Dealer is responsible for missing or stolen Detectors.
- Dealer is responsible for shipping costs back to Tesoro.
- If Demo Detector is not returned after 4 weeks from the Dealer's accepted date, there will be a \$15.00 charge. In addition, every 30 days after, there will be a \$15.00 charge until the Detector(s) are returned.

### DEALER'S UPDATE.....

Less ground effects.

Always light-weight.

Better coverage and depth/sensitivity balance.

Introducing RSD, or "Responsive Signal Design". This design is incorporated in our new 11" X 8" Wide scan coil. With RSD technology you can give your detector the best advantage possible for those heavy mineralized sites. As an accessory coil you can breathe new life into an old detector.

The 11" x 8" coil uses wide scan technology to provide tip-to-tip sensitivity. A wider detecting sweep means less time over unproductive ground and more time finding the goodies you want. The wide scan design resists changes in mineralization.

**All Tesoro search coils are waterproof.**
