Venue Hamner Conference Center
Durham, North Carolina, US

Date February 16, 2018

What to expect

This one day meeting will cover a broad range of topics touching on gene regulation in an informal atmosphere. The meeting will have 11 speakers, a lunch and learn ChIP workshop, poster session and reception.

Topics include:

- Epigenetic determinants of transcription in health and in disease
- RNA modification as a regulator of transcript function
- lncRNA regulation and function
- long range chromatin structure
- nuclear receptors and chromatin remodeling
- intersection of metabolism and epigenetics

Important note regarding Hotel Accommodations:

Abcam does not have an affiliated hotel agency for this event.

Please be careful of direct approaches from companies offering hotel reservations for this event. Reservations made by unaffiliated organizations may appear to be for lower rates, however they may be illegitimate, have unreasonable cancellation or change penalties, or be completely non-refundable. Please be aware of, and report any unauthorized solicitation to Abcam.

Terms and conditions

Delegates are advised to ensure they have adequate travel insurance to cover their attendance at the conference in case of incident, or cancellation due to circumstances beyond Abcam's control.

Substitute delegates can be made at any time by contacting Abcam Events.
