

**PORSCHE**

**The world of Porsche is yours.**  
And your new 718 Boxster is only the beginning.

# A pure expression of independence.

It has been 20 years since the original Boxster debuted. In order to create a worthy sequel that continues the 718 era, Porsche engineers unleashed a four-cylinder turbocharged boxer engine that beats with the same fighting spirit that delivered countless podium finishes.

The new 718 models were designed with Intelligent Performance: Increased power that is delivered more efficiently, innovative technologies such as the strategic use of lightweight materials in its construction, and with an exterior and interior design that puts aesthetically appealing lines and curves in all the right places. The result is a new, decidedly more striking design, an even sportier chassis setup and a host of new performance enhancements. Not to mention up to 350 units of turbocharged horsepower.

More independent of the spirit than ever before, the power, instinct and intensity of the 718 Boxster are on an entirely new level.
