Welcome to RockWorks!

- Use the **Licensing** button if you purchased the program and need to activate your license.
- Use the **Free Viewers** to open graphic files.

- [RockPlot2D](#) opens "Rw2D" files (maps, cross sections, diagrams, etc.)
- [RockPlot3D](#) opens "Rw3D" files (isosurfaces, voxels, fence diagrams, etc.)
- [ReportWorks](#) opens "RwRpt" files (page layouts)

If you are running RockWorks in Trial mode, you have two weeks to use the full program - go through the tutorials with sample data, enter your own data, create your own models and diagrams.
