INFO / CARE & DETAILS / DELIVERY

Originally crafted to protect the wearer from the inclement weather, the G10 has been remastered to pay homage to it's title: Britain's Best rainwear. This functional single-breasted raincoat now has a more modern feel and features a lightweight water resistant poly/cotton fabric giving more comfort during heavier rain. The classic "umbrella" back vent conducts rain away efficiently without detracting from it's classic appearance. Made in England. The model is 190cm tall and wears size 42.
