

TriZetto® NetworX Modeler®

Negotiate and Compare More
Contracts in Less Time, with Greater
Insight and Financial Accuracy

Today's provider networks and complex contract negotiations demand quick comparisons and demonstrations of network competitiveness to win business. Contract-modeling tools must be able to support CMS reimbursement standards, the advent of new payment methodologies and the need to swiftly deliver highly precise financial analyses.

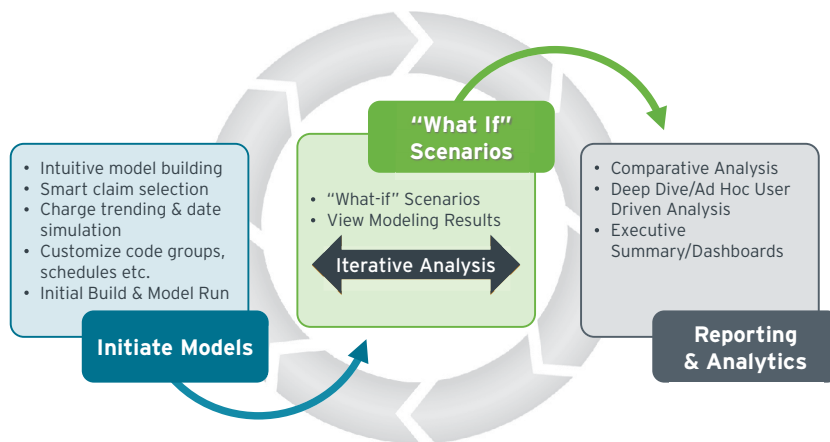

TriZetto® NetworX Modeler® and NetworX Modeler® Analytics. Bringing speed and precision to provider contract modeling and reporting.

With NetworX Modeler, modeling and evaluating the potential financial impact of new contracts is easier, faster and highly accurate. The NetworX Modeler solution is part of the Cognizant line of TriZetto Healthcare Products—a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

TriZetto® NetworX Modeler® and NetworX Modeler® Analytics

Sophisticated financial analysis and reporting that lets you:

- Introduce more complex payment methodologies to help lower costs
- Model contract variations by repricing original claims instead of applying a factor to the total amounts
- Demonstrate network cost savings to win new group business
- Increase provider satisfaction by accurately modeling contract rate changes based on actual claims.
- Compare current and proposed contract rates to a baseline, such as Medicare

TriZetto NetworX Modeler and NetworX Modeler Analytics solutions allow you to:

- Model, analyze and negotiate more contracts in less time, with less staffing
- View and compare the financial impacts of various pricing scenarios
- Pinpoint cost-savings opportunities and potential financial risk with respect to MLR
- Identify the impact of specific rates/terms on cost trend
- Compare current and potential contracts to CMS or state pricing benchmarks
- Import and compare data from any data source to help in acquiring new group business

Historical claims data is easily imported from any data source so you can compare rate proposals against existing contracts to more accurately project the cost savings of negotiated provider rates without IT assistance. Interactive click-through reports help you quickly identify opportunities to save money, highlight areas of financial risk and assess the potential impact of new rates and terms, regardless of complexity.

Prepare confidently for negotiations. Evaluate new proposals with ease.

NetworX Modeler and NetworX Modeler Analytics are components of TriZetto's NetworX Suite, which also includes the NetworX Pricer® and NetworX Payment Bundling Administration™ solutions. Combined, these solutions provide end-to-end capabilities for provider reimbursement solutions, from contract modeling and analysis, to claims pricing and episode-of-care administration.

End-to-end solutions for your business.

In addition to TriZetto NetworX Modeler we offer an extensive line of solutions and services that harness the power of digital to optimize your business. Achieve new levels of performance and efficiency with Digital Business, Digital Operations, and Digital Systems and Technology capabilities from Cognizant.
