**CONTACT US****Business consulting****Helping transform your business through a collaborative approach**

As a leader, you must continuously cope with ongoing change—whether transforming your business to take advantage of new market opportunities, restructuring to improve operational efficiency, or responding to new regulations and risks. This requires a rapid, proven and agile response, which ensures that the right people, processes and technologies are in place to enable peak performance, no matter the competitive and economic conditions.

With CGI **business consulting**, you have the expertise needed to help grow your business, drive revenue, improve efficiency and become more agile. Founded in 1976, CGI is among the leading end-to-end IT services and business consultancy companies. We have the capabilities and scale required to combine cross-industry, operational and technology expertise to successfully manage transformation and provide for lasting business performance. We take a unique approach to consulting—listening and co-innovating with our clients to ensure lasting success.

**Experience and expertise**

Thousands of business consultants across CGI's global footprint are advising some of the largest and most complex companies and government organizations, for example:

- We helped a global cosmetics leader redefine its internal control policy that reduced risk exposures by almost 75% for its subsidiaries within 40 countries.
- After a merger, we assisted a logistics leader in updating its global supply chain, centralizing its
