**Introducing the New FASTAR®**  
for Authorized Star Builders and FASTAR Builders.

Our company is proud to offer an all-new, state of the art system that lets you price and order low-complexity buildings over the internet. Powered by patent-pending technology, our unique system offers an advanced solution for online building pricing that enables you to:

- Manage projects through an advanced dashboard that gives you the power to share, copy and modify quotes instantly
- Quickly and efficiently identify applicable codes and loads through a proprietary program that works in tandem with Google maps
- More accurately describe such building requirements as geometry, loading and accessories
- Continue to take advantage of our 3-Week Shipping guarantee – a great option when fast turnaround is a top priority!

**Launch now.**
