Cloud-Based EHR

Practice Management System

Patient Portal

**Let's move  
from reactionary  
to preventive  
medicine together!**

# Customizable Practice Models

Hello Health offers models that include valuable features such as:

- › Online scheduling
- › Secure messaging
- › Clinical decision reminders
- › Advanced search
- › Documentation and task management
- › Customizable practice settings
- › E-fax and e-prescribing/EPCS
- › Billing services
- › Lab integrations
- › Template management
- › Automated appointment confirmations and reminders

The interactive portal highlights patient engagement and allows your patients to securely message you, book appointments online, access their medical profile and more.

Through Hello Health's quick implementation process, we can have your staff trained and ready to go in as little as 2 weeks!

# Have you heard of our Credit Card on File (CCOF) program?

As part of the Practice Management System, this program securely stores credit, debit or HAS/FSA card information to automatically collect patient copays and balance charges. Benefits of this program include:

- Processing co-pays, outstanding charges and patient fees
- Elimination of statements and bounced checks
- Improved cash flow-reduced days in A/R
- Elimination of paper receipts
- Reduced third-party collections
- Quicker daily reconciliation

# Are you interested in a Revenue Generating Membership plan?

Hello Health can also help you manage your patient's access to their medical file with our customizable membership plan.

Choose which patients can access what features within the portal (scheduling, secure messaging, lab results, etc.) and set up a monthly fee that will be charged automatically to your patients every month or year. This additional income will be deposited directly in your bank account!
