The products in this collection are made and packaged in our Laguna Beach, California kitchen. They are unique and delicious and will help make your meals successful.

### Crostini-

Thinly sliced baguette, brushed with olive oil and baked to a golden brown. Perfect with all condiments and cheese.

### Granola-

Our granola has been the mainstay for breakfast at Zinc for almost 30 years. The high nut content makes this a rich and nourishing granola. It contains almonds, walnuts, sesame seeds, brown sugar, butter, oats.

### Zinc Crackers-

We use our end of day artisanal bread and thinly slice it in large sheets. We then brush it with garlic infused olive oil and sprinkle it with a generous amount of herbs, chili flakes, sea salt and sesame seeds. We then toast it to create the most perfect snack and condiment carrier ever.

### Thick Cut Oatmeal-

Cut from whole oat groats, extra thick and rolled for a hearty, whole oat texture and then roasted with a European roasting technique gives these oats a nutty taste and with more body than the commercial brands.

### Steel Cut Oatmeal-

This style of oat is what we use in our kitchen for oatmeal. It maintains a wonderful texture and flavor after being cooked. The groats are roughly cut into 3rd's rather than rolled and therefore have more texture. They do take longer to cook.

### Oatmeal Topping-

We created this recipe to give our oatmeal uniqueness. We serve this with every bowl of oatmeal. It's made with walnuts, almonds, dried cherries, currants and brown sugar.

\* packaged in a kitchen that process gluten, dairy, nut, and soy-products.
