Performance Boating Has Never Looked So Good

The Center Console world just got Fountainized. With the introduction of the head-turning 34SC, Fountain brings its unique brand of high- performance style and quality to a center console world that just a few short years ago was boring vanilla white. In the cockpit, stand-up bolters with a full-width back seat create a bold look. On the transom, options range from twin 300 Verados up to 450Rs and even triple engine applications. Well equipped with everything you'll ever need as standard equipment, buyers can also customize from a wide range of color choices when it comes to hull side graphics, T-top accents, powder coating, cockpit upholstery and even flooring patterns. Paint or gel coat graphics? You decide.
