

# Mountaineer

Gitzo Mountaineer tripods are **extremely rigid and lightweight** combining portability and robustness. They are at the forefront of Gitzo's latest technological solutions, for example with the G-lock system and removable center column. The tripods offer high quality performance and total portability for photographers: perfect to carry with the Gitzo [tripod bags](#). They guarantee innovative design, solid construction and high quality materials to support any photography style. The mountaineer range tripods are perfect combined with Gitzo [tripod heads](#).
