

THE PERFECT WAY TO LOSE YOUR COOL

- Soft, comfortable, breathable, lightweight
- Stretchable
- Wicks away moisture, keeping you dry
- Blocks out cold and wind
- Total thermal head and face protection
- As lightweight as cotton – but as warm as wool without the itch or odor
- Out performs other thermal fabrics

ProMAX IV™ Polypropylene/Lycra® fabric gives HOTHEADS® the unique ability to block out cold and wind providing maximum warmth and protection for your head, face, and neck.

MAINTAINS BODY TEMPERATURE

Highest insulation power of any fiber, natural or manmade.

NON-ALLERGENIC

Soft, comfortable "cotton-like" feel. Contains no chemical coatings and does not retain odors.

INCREDIBLY DURABLE

Outlasts wool, acrylic, and cotton. Colorfast, will not fade, shrink, or fall apart.

RETAINS ITS SHAPE

EASY CARE

Machine washable, quick drying. Machine wash warm, line dry recommended. Do not iron. Do not use softener.

ProMAX IV™ - The perfect fabric for outdoors

Pulls moisture and perspiration away from the body and transports it to the outside of the fabric where it can evaporate. This keeps the skin moisture-free, eliminating chills and "face-freeze."

Maintains body temperature. Keeps you warmer in the winter and cooler in warm environments. Our ProMAX IV™ fabric works like it has a built-in thermostat.

Lightweight and breathable, non-allergenic, will not shrink or fade, stain resistant, and machine washable.

92% Polypropylene 8% Lycra®
