Multipurpose Flooring for Any Room

Most homeowners think about installing rubber floors for gyms, but this low-maintenance, affordable flooring option can be used for a variety of applications in addition to exercise floors. Whether you're looking for inexpensive flooring for a basement or want to add rubber floor tile to your garage, the options are endless. At Lowe's, we have a variety of rubber flooring and other similar options to choose from like vinyl, foam and PVC plastic. Floor foam tile is an especially good option for children's playrooms as it's soft and flexible yet durable enough to hold up through constant use. Interlocking foam mats are also easy to install and easy to remove or transport to different rooms whenever necessary. For home gym flooring, rubber is the best material option. Interlocking rubber floor tile is durable, shock-absorbent, water-resistant and easy to install. No matter what kind of multipurpose flooring you're looking for, you'll find the ideal option for your space at Lowe's.
