The NISC Enterprise offers persona-based features and functionality, designed to match the processes in your office from Accounting and Operations to Marketing, Service and beyond. The NISC Enterprise is streamlined to work across your organization so you can keep your focus on your most important assets, your customers.

NISC understands that certain core functionality is critical to the success of your business. Every one of NISC's Enterprise solution packages leverages the latest technology to help you go mobile, stay connected and work seamlessly across your organization. Innovative solutions that help build efficiency...at no additional cost.

Core Enterprise Functionality Included with Every NISC Solution Package:

Board Meeting Management with CalltoOrder

NISC's CalltoOrder board meeting app for Apple iPad helps simplify the board meeting process by compiling important documents, agendas and customized meeting information digitally in one place.

- Organize board documents needed for the meeting
- Store and access previous meeting materials by date
- Customized tabs for meeting-specific documents like bylaws or policies
- Sticky-note functionality for note taking and easy future reference

CalltoOrder
Meetings Made Simple.

Document Management

NISC's Document Management allows for easy indexing, sharing and archiving of all important documentation, including digital replicas available throughout the NISC Enterprise.

- Scan, share and search archives from a single source
- Index, archive, retrieve and send digital document replicas
- Fully-integrated with the iVUE® Enterprise

iVUE Anywhere with iVUE AppSuite

NISC's iVUE AppSuite takes your enterprise data into the field. With key accounting, customer care and engineering features, the iVUE AppSuite app will help you accomplish your goals anywhere, anytime.

- Access important data and critical information from a single smart device
- Supports Accounting, Operations and Service processes
- Full functionality available in a connected or disconnected environment

iVUE AppSuite

Business Intelligence & Reporting

NISC's Business Intelligence & Reporting solution helps you turn your data into actionable information. Available through the cloud, you'll see visualizations that will help you quickly understand your data to take action or dive into each report in greater detail.

- Quickly and easily see trends in your data or identify anomalies
- View insights that inform better business decisions
- Personalized dashboard to display the information relevant to you
- Collaborate and share content across your organization
- Accessible from browsers on any internet-connected device

Multi-Channel Messaging

NISC's Multi-Channel Messaging allows you to connect with your customers in the manner they prefer. From text messages, push notifications and phone calls to printed letters, they can let you know their preference and you can ensure your messages are being received.

- Communicate important information with customers directly and immediately
- Customize notifications regarding usage limits, service interruptions and more
- Ensure your messages are received by allowing customers to choose how they're contacted
