 [Features](#) [Pricing](#)

We've changed our name but you can still trust us to offer the same great features, friendly support, and fair pricing for your domain names.

Don't worry, your pairNIC account and domain names will continue to work with Pair Domains.

Pair and Pair Domains' outstanding customer support is why I've been a customer for umpteen years.

I have used Pair for web hosting since your inception back in the 1990s and have never had a complaint. Your customer service is outstanding and responsive – an exception in these days of autobots. I like your pricing and the options you provide. I never worry about security or resiliency. You are the best.

Pair Domains is the best domain registrar on the planet. I've tried all the big names, and they all leave so much to be desired. I can't tell you how highly I recommend you to other people, and that you have a customer for life in me.
