CARBON EXPRESS

"SHOOT BETTER™"

DUAL SPINE WEIGHT FORWARD

DUAL SPINE WEIGHT FORWARD™ ARROW

60% LESS OSCILLATION VS. A SINGLE SPINE ARROW

CONVENTIONAL ARROW

NOW STANDARD ON ALL MAYHEM® DS SERIES & MAXIMA HUNTER® ARROWS

MAYHEM DS AND DS HUNTER NOT JUST A TUBE!

ONE ARROW. TWO SPINES. Twice the ACCURACY.

The D-Stroyer PileDriver® is engineered for the hunter who wants ULTIMATE penetration. Adding some weight to the line the D-Stroyer PileDriver is the heaviest arrow in the Carbon Express line and designed to create maximum kinetic energy and deliver greater knock-down power. The Dual Spine Weight Forward technology delivers enhanced, accuracy, and penetration vs a single spine shaft. With patented DualSpine weight Forward Technology this two-spine arrow shaft reduces the oscillation by half for twice the accuracy of a single spine shaft to deliver superior stabilization and exceptional broadhead flight.

ADD TO CART

**Dual Spine Weight Forward™** - Proprietary fusion of different carbon materials that creates 2 spines in 1 arrow to manage energy better and make arrows recover faster, spin 20% sooner, retain more speed and deliver unparalleled broadhead accuracy.

**BuffTuff™** - Front shaft section made with BuffTuff, the world's toughest and quietest carbon arrow finish.

**Matched Weight Set™** - Weight sorting tolerance is +/- 1.0 grains

**Real Straightness™** - Every Mayhem DS arrow is laser checked for straightness to a remarkable 1/10,000 of an inch. Mayhem DS straightness of +/- 0.0035" is a maximum measurement, not an average.
