Online Communities

Experience the power of a connected community.

Share   

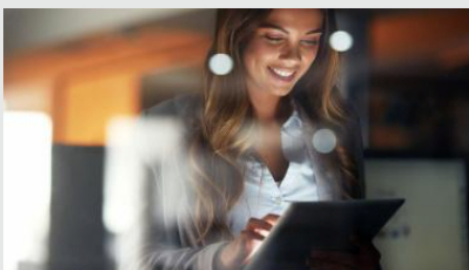

Networking is one of the core values of FPA membership, so community matters.

The power of connections is critical to your personal and professional growth. The sharing of ideas provides you the inspiration you may seek in your career, business development, and in the practice of financial planning. When you can lean on your peers who share common experiences for advice and guidance, the sky really is the limit.

Our connected community can be experienced in several ways.

Get Connected!

FPA Connect

A robust peer-to-peer online community providing many different ways to connect to

All-Member Open Forum

The primary community on FPA Connect where members

FPA Activate

A private Facebook group designed for those new to the profession.

members across the country.
