Great vocals

★★★★★

I have bought many vocal products from harman, and this vocalist 3 is the best version. The one following didnt suit me, and the one just prior to it didnt quite work in the harmony area. It has quality construction too. I have now bought a second one as a back up.

★★★★★ **Verified Purchase**

It works like new..we use this unit all the time. I hate that digitech discontinued this model. The new one is not user friendly for a live performance..
