PTO Form 1597 (Rev 11/2007)
OMB No. 0651-0055 (Exp. 9/30/2014)

Section 7 Request Form
Textform with Handwritten Signature

To the Commissioner for Trademarks:

The registrant requests the following amendment(s) to registration no. **3181282** (Stylized and/or with Design, see mark)

EXPLANATION OF FILING
On December 6, 2006, the above-identified service mark was registered on the Principal Register. Upon a recent review of our files, registrant's attorney noticed that the Certificate of Registration did not include the color claim which was set forth in the application in the description of the mark as follows: "The drawing consists of the word AFFYMAX in the dark blue PANTONE color 280C, The triangular shape in the drawing consists of the light blue PANTONE color Hexachrome Cyan C; The swoosh design on the left side of the triangular shape in the drawing consists of the dark blue PANTONE color 280C." Registrant's attorney respectfully requests that the PTO issue a new, amended Certificate of Registration that shows the claim of color.

NOTE TO APPLICANT: When filed as part of the electronic form (i.e., scanned and attached as an image file), the signature page **must** include both the signature information **and** the boilerplate declaration language. Do **not** include the entire application, but do ensure that the boilerplate declaration language actually appears; *a signature by itself will **not** be acceptable.* If, due to browser limitations, the boilerplate declaration language appears on a previous page when printed, you must "merge" the declaration and signature block onto a single page prior to signing, so that the *one complete page* can be scanned to create an acceptable image file. It is recommended that you copy-and-paste the entire text form into another document, manipulate the spacing there to move the declaration and signature section to a separate page, and then print this new version of the text form to send to the signatory.
