To the Commissioner for Trademarks:

The registrant requests the following amendment(s) to registration no. **3797937** Miscellaneous Mark (Stylized and/or with Design, see below)

has been amended as follows:

EXPLANATION OF FILING

Registrant requests a correction to Registrant's name from the "American Psychological Association" to the "American Psychological Association, Inc." due to Registrant error. Registrant mistakenly did not include the "Inc." in its name when filing the initial application. This constitutes an immaterial minor clerical error under Section 1201.02(c) (3) of the Trademark Manual of Examining Procedure, as it does not change a significant portion of Registrant's name, and was done in good faith. We note that this does not constitute an assignment because the entity remains the sameÍ¾ rather, this constitutes an immaterial minor clerical error caused by the Registrant. We respectfully request that the Section 7 Request be examined in conjunction with the Section 8 & 15 Declaration of Use & Incontestability for this registration.

NOTE TO APPLICANT: When filed as part of the electronic form (i.e., scanned and attached as an image file), the signature page **must** include both the signature information **and** the boilerplate declaration language. Do **not** include the entire application, but do ensure that the boilerplate declaration language actually appears; *a signature by itself will* **not** *be acceptable.* If, due to browser limitations, the boilerplate declaration language appears on a previous page when printed, you must "merge" the declaration and signature block onto a single page prior to signing, so that the *one complete page* can be scanned to create an acceptable image file. It is recommended that you copy-and-paste the entire text form into another document, manipulate the spacing there to move the declaration and signature section to a separate page, and then print this new version of the text form to send to the signatory.
