WhatsApp Messenger is a FREE messaging app available for Android and other smartphones. WhatsApp uses your phone's Internet connection (4G/3G/2G/EDGE or Wi-Fi, as available) to let you message and call friends and family. Switch from SMS to WhatsApp to send and receive messages, calls, photos, videos, documents, and Voice Messages.

The design is so outdated. A overhaul adopting Google's Material Design is much needed. The animations are funky and the lack of dark mode is such a pretty disappointing. The media compression algorithm is downright awful. I don't even want to use the Status feature because every picture, video or G

malicious! In order to access the app, you have to receive a text message. now that your phone is linked to the network, you can't use the App unless you give access to your whole phone. so I'm order to make a phone call, you need to allow access to your contacts first, then you can make calls to an...

Zero, catastrophe, first of all it can not be activated with SMS. It's even worse that, when I contacted the help team, they behaved like I was illiterate, persistently the same things - reset the phone, reinstall the application, the format of the phone number is not as good. As I fell from another...

This app is frustrating me. I'm unable to download my contacts status like before. I was saving other people's statuses even with cheap phones, now I am using Huawei P20 but I can't save. When I open a person's status and go to the 3 dots for options, there's only "mute" written there and no other t...

WhatsApp Business App

WhatsApp Business is a free to download app, and was built with the small business owner in mind. With the app, businesses can interact with customers easily by using tools to automate, sort, and

quickly respond to messages.

WhatsApp can help you provide customer support and deliver important notifications to your customers. Learn more about [WhatsApp Business API](#).

END-TO-END ENCRYPTION

Security by Default

Some of your most personal moments are shared on WhatsApp, which is why we built end-to-end encryption into the latest versions of our app. When end-to-end encrypted, your messages and calls are secured so only you and the person you're communicating with can read or listen to them, and nobody in between, not even WhatsApp.
