

ROLL-RITE®

GIT Series

The TarpStretcher® Motor:

The TarpStretcher® is designed exclusively for roll-taping applications on our patented knuckle arm power kits. It's the "TarpStretcher®" features our patented bolt technology.

- **Initiated Self...** ...for high torque taping demands of skip-roll taping.

- **High Pollution...** Chrome plated casting designed for severe industrial use. Plus protection adds a distinctive profile to your look. For a professional appearance.

- **5-Year Warranty...** Industry standard. No previous warranty against premature wear-out. The TarpStretcher® arm motion is warranted for a period of 5 years from date of shipment.

Assistance!

Smooth, Continuous Arm Operation

The Knuckle Pivot Technology:

Roll-Rite's power kit arms consist of a special profile, high strength extruded aluminum alloy. Combined with our patented knuckle pivot technology, the power arm provides smooth compact operation for rear taping. Standard mounting bracket electric or air/hydraulic drive are available.

- **Patented Knuckle Pivot Technology...** allows safe to finish hinged load and keeps constant tension on top for maximum control in harsh conditions.

- **Lock-Breaker™...** offers maximum load protection and condensation.
- **Single Arm Power Kits...** can be operated with standard rear bungee assisted return or with our innovative spring powered rear return (shown under Accessories on the center back page).

- **Dual Arm Power Kits...** feature our front power kit arm and a rear synchronized arm to support the rear axle end and provide ultimate wind protection.

POWER KITS

The TaskMaster® Motor:

Roll-Rite's "hollow-shaft" technology is a proven application for power conversions across several new industries. This innovative hollow shaft gear motor features our patented brake technology powers even hard-to-break grain doors.

The powerful TaskMaster® electric gear motor delivers the necessary torque for large, hard to crank doors. TaskMaster® HS (high-speed), this is only recommended for stop or cache-style doors.

Easy install and operation. Retracts your hopper door. For each foot operation, Roll-Rite has hopper doors power kits to handle all necessary needs.

- **Manual Operated...** very one-pull access allows crank through in case of power failure. No disconnecting one shaft to re-connect another.

- **Limit Switches...** allows for convenient in-cab operation. Two limit switches included per door. Kits without limit switches are also available.

For more information on the GIT Series call 1-800-297-905

The Black Box™

Wireless Controls:
Our Black Box™ wireless controls, wireless remote and key/rearview epis. Natures an all-new design. Sealed membrane push button operation and new world light button with remote control access.

- **Worklight Feature...** can power LEDs — or up to 2 - 30-watt light bulbs. (Worklight kits sold separately on center back page)

- **Improved...** Non-resist SAE International Standard for Heavy Duty Vehicle Applications (SAE J1455).

- **New & Improved External Connections...** pre-wired for fast, pain-free hookups.

- **Automatic Hand Lockout...** No key lockout needed. Press Ch1 and Ch2 buttons or key to unlock or re-lock.

- **360 Walk Around...** remote operation allows rear camera over tape functions to detect road obstacles and allow operator to detect rear obstacles when used with our higher power kits.

Gear Motor Technology

TarStretcher® Series

Designed for our patented Side-to-Side Tarp Systems.

Industry leading gear motor.

Features:

- Engineered.** Specifically for high torque tarping demands.
- Unique Performance.** Unlike competitive tarp motors, the Super Duty can reach peak performance because it requires only half the amp draw of any other tarp motor.
- High-Polished.** Chrome-plated casting designed for virtually corrosion-proof protection, adds a distinctive profile to your truck for a professional appearance.
- Sure Gear Technology.** Features a spur and helical gearings configuration with forged steel heat treated gears and precision ground ball bearings for a much longer transmission life than worm-style transmission.
- 5-year Warranty.** Industry's first non-prorated warranty is offered on all TarStretcher® products. The TarStretcher® Gear Motor is warrantied for a period of 5 years.

Primary Applications:

- Front-to-Back Tarp Systems.** For up to 57' of tarp on single trucks and trailers including:
 - Mole-Axe Dump Trucks
 - Gravel Trucks
 - Transfer Chip Trailers
 - Live Bottom & Ready Mix Trucks
 - Single Axle Truck and Trailers

Features:

- Business.** Specifically for side-to-side tarping demands.
- Secure Tarping.** The TarStretcher® is standard on our Side-to-Side Series side-down tarp systems and offers users with our Premium vinyl tarp to actually stretch the tarp down to weight/light protection.
- High-Polished.** Chrome plated casting designed for virtually corrosion-proof protection, adds a distinctive profile to your truck for a professional appearance.
- Sure Gear Technology.** Features a spur and helical gearings configuration with forged steel heat treated gears and precision ground ball bearings for a much longer transmission life than worm-style transmission.
- 5-year Warranty.** Industry's first non-prorated warranty is offered on all TarStretcher® products. The TarStretcher® Gear Motor is warrantied for a period of 5 years.

Primary Applications:

- Sid-e-Sid-e Tarp Systems.** For general mesh or sealed solid tarp applications including:
 - End Dump Trailers
 - Transfer Chip Trailers
 - Gravel Trailers
 - Live Bottom & Ready Mix
 - Single Axle Truck and Trailers

Features:

- Engineered.** For high torque manual tasks.
- Hollow Thru-Shaft Technology.** versatile 110 book shafts offers many crank-style applications.
- High-Polished.** Chrome plated casting designed for virtually corrosion-proof protection, adds a distinctive profile to your truck for a professional appearance.
- Sure Gear Technology.** Features a spur and helical gearing configuration with forged steel heat treated gears and precision ground ball bearings for a much longer transmission life than worm-style transmission.
- 5-year Warranty.** Industry's first non-prorated warranty is offered on all TarStretcher® products. The TarStretcher® Gear Motor is warrantied for a period of 5 years.

Primary Applications:

- Cable Power Kit.** For powering existing cable style tarp systems.
- Rubber Band Power Kit.** Replaces heavy duty chains for grain trailer hopper discharge doors.
- Loadline Gear Power Kit.** Replaces power for single leg banding gear.

Super Duty Specifications:

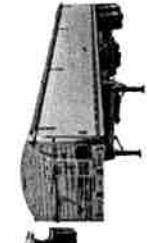

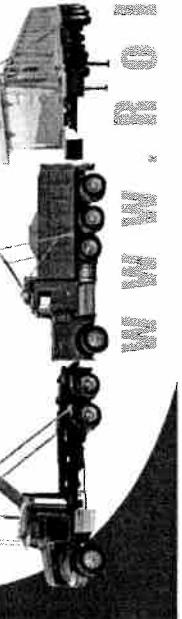

Super Duty Series Name	Rev. Length in.	Width in.	Overall Height in.	Gear Transmission		Shaft Speed RPM	Shaft Torque lb-in.	Shaft Diameter in.	Shaft Material	Shaft Finish
				Model No.	Ratio					
Super Duty	1011C	61	510	6	1/200:1.00:1	1600	40	.75	41	10
Super Duty	1012C	74	510	6	1/200:1.00:1	1600	40	.75	41	10
Super Duty	1011Z	61	510	6	1/100:1.00:1	1600	40	.75	41	10
Super Duty	1012Z	74	510	6	1/100:1.00:1	1600	40	.75	41	10

Note: 110 book shafts are recommended for use with TarStretcher® Series Tar Stretcher. See application chart for details.

TaskMaster™ Specifications:

TaskMaster™ Series Name	Rev. Length in.	Width in.	Overall Height in.	Gear Transmission		Shaft Speed RPM	Shaft Torque lb-in.	Shaft Diameter in.	Shaft Material	Shaft Finish
